Chill-In™ Insulation Kits

Chill-In Insulation Kit

- 4' x 8' flexible blanket faced with zero-perm vapor retarder on both sides
- 1 roll of zero-perm pressure sensitive tape
- Silicon caulk
- Utility knife

EverGreen®

*Chill-In™
Insulation Kits*

Quilted design aids in flexibility
and installation ease

EverGreen®

*Chill-In™
Insulation Kits*

Reduces condensation,
corrosion and energy waste

EverGreen®

*Chill-In™
Insulation Kits*

Removable and reusable after
installation

EverGreen®
Chill-In™
Insulation Kits

Modular Insulation Blanket

- 2" thick, 4' x 8' fiberglass insulation blanket
- Continuous zero-perm vapor retarder on both sides
- Zero-perm pressure sensitive tape seals the blanket to most surfaces

EverGreen®
Chill-In™
Insulation Kits

Cut. Seal. Wrap. Tape. Caulk.

Insulating chilled water
components is quick and easy.

EverGreen®

*Chill-In™
Insulation Kits*

Use quilted blocks to help
measure the length & width

EverGreen®

*Chill-In™
Insulation Kits*

Cut the blanket to size using
scissors or utility knife

EverGreen®

*Chill-In™
Insulation Kits*

Tape to seal raw edges

EverGreen®

*Chill-In™
Insulation Kits*

Seal raw blanket edges with
zero-perm tape

EverGreen®

*Chill-In™
Insulation Kits*

Wrap the sized blanket around
the component

www.cutnwrap.com

EverGreen®

*Chill-In™
Insulation Kits*

Repeat steps to cover additional areas of the component

EverGreen®

*Chill-In™
Insulation Kits*

Tape to the pipe/equipment

EverGreen®

*Chill-In™
Insulation Kits*

Seal gaps and openings with
silicone caulk

EverGreen®

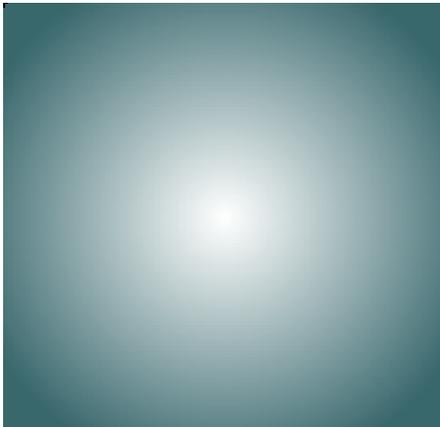

*Chill-In™
Insulation Kits*

Removable & reusable insulation
for bare components done
in minutes!
